AMENDMENT

Sir:

IN THE CLAIMS:

Please amend Claim 15 as follows:

15. (Amended) A computer implemented method as defined in Claim 1 ~~17~~,  
wherein the modification method of said random session object key includes a hashing  
function.

REMARKS

The Office Action dated September 29, 1999 and the references cited therein have been  
carefully considered. At the outset, Applicant would like to thank Examiner Elmore for the  
courtesies extended their counsel during a telephone interview conducted on December 22, 1999.  
During the telephone interview, each of the references of record were generally discussed. Since  
the original Examiner has left the Patent Office, Examiner Elmore agreed that the next action,  
if not a Notice of Allowance, would not be made final.
